

# PanaVerse Assginment

## Question#02:

2. Personal Message: Store a person's name in a variable, and print a message to that person. Your message should be simple, such as, "Hello Eric, would you like to learn some Python today?"

## Solution:

### Step#01:

What we need(Requirements):

1. A person's name who is interested in learning some python.
2. Display a message to that person.

### Step#02:

Let's do code.

Code:

```
let personName = "Eric"; //store person's name in block variable.  
console.log("Hello " + personName + "\nDo you want learn some python with us?"); //print  
simple message to that person.
```

### Step#03:

Let's run the code.

Output/Result:

The screenshot shows a terminal window with the following content:

```
PROBLEMS  OUTPUT  DEBUG CONSOLE  TERMINAL  + v ... ^ x  
C:\Users\HP\Desktop\MetaVerse_Q1\Question02\Question02_Code>tsc  
C:\Users\HP\Desktop\MetaVerse_Q1\Question02\Question02_Code>node question02.js  
Hello Eric  
Do you want learn some python with us?  
C:\Users\HP\Desktop\MetaVerse_Q1\Question02\Question02_Code>
```

On the right side of the terminal window, there is a panel with two tabs: "C Compiler ..." and "cmd".
