

PanaVerse Assginment

Question#05:

5. Famous Quote 2: Repeat Exercise 4, but this time store the famous person's name in a variable called famous_person. Then compose your message and store it in a new variable called message. Print your message.

Solution:

Step#01:

What we need(Requirements):

1. A person's name.
2. Display that person's name along with its quote.

Step#02:

Let's do code.

Code:

```
let famous_person: string = "Shiekh Atif Ahmed";
let message: string =
  "Failure is nothing it just to train you that how you will defeat your
  bigger challenges in future.";
console.log(famous_person + " once said," + message);
```

Step#03:

Let's run the code.

Output/Result:

PROBLEMS OUTPUT DEBUG CONSOLE TERMINAL

+ v ... ^ X

C Compiler ...

cmd

```
C:\Users\HP\Desktop\MetaVerse_Q1\Question05\Question05_Code>tsc
```

```
C:\Users\HP\Desktop\MetaVerse_Q1\Question05\Question05_Code>node question05.js
```

```
Shiekh Atif Ahmed once said,"Failure is nothing it just to train you that how  
you will defeat your bigger challenges in future."
